

DRAINAGE PLAN FOR LAHONTAN

An appropriation of \$700,000 to carry out a drainage program on the Nevada reclamation project will be asked of congress by the irrigation district directors.

The directors want to begin work on the drainage system next year and if congress passes a bill appropriating \$700,000, a contract will be drawn up with the federal government and submitted for a vote to the members of the irrigation district which embraces the reclamation project.

Drainage of the lands on the project is of the greatest importance, according to Mr. Richardson, and it is believed that congress will appropriate the money. It is planned to have the land owners pay back the money on a 40-year basis without interest but this matter will be taken up in a contract which will be made with the government.

BOOKS OPEN FOR STOCK SUBSCRIPTION AT MIZPAH HOTEL

Hundreds of mining men have visited the scene of the new strike made by Thomas J. Clark in the south end of Klondyke Divide district during the past week and it seems to be the general opinion that another of the big mines has been discovered. Although work has only started, further sampling of the big ledge running through the property for 2600 feet indicates that the first assays taken running from \$51.00 to \$278.60 per ton was no mistake and those interested are, if possible, more than ever enthused over the possibilities of this great gold property.
